

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Chemical type Article, Aluminium self-adhesive tape.  
Trade name SeaProtect Tape Alu

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### 1.2.1 Relevant identified uses

Use of the substance For sealing of joints between ISOVER Alu faced mineral wool products and sealing of joints between Alu facings and metal.

#### 1.2.2 Uses advised against

No additional information available.

### 1.3. Details of the supplier of the Safe Use Instruction Sheet

SAINT- GOBAIN PPC ITALIA S.p.A.  
Via E. Romagnoli, 6 – 20146 Milano - ITALY  
Tel.: (+39) 0242431  
Fax: (+39) 0248953780  
E-mail: [InfoEhs.it.isover@saint-gobain.com](mailto:InfoEhs.it.isover@saint-gobain.com)

## 2. Hazards identification

### 2.1. Classification of the substance or mixture

Classification in compliance with the regulations (EC) N. 1272/2008.

To our knowledge, this product, in the form in which it is placed on the market, does not represent any particular risk, provided it is handled in under the normal and recommended conditions of storage and use.

Nevertheless, please observe the information given in this safe use instructions sheet.

### 2.2. Label elements

According to Regulation (EC) No 1272/2008 no labelling applicable.

### 2.3. Other hazards

Unknown

## 3. Composition/information on ingredients

No reportable hazardous substance(s) or complex substance(s).

SeaProtect Alu tape is a single coated adhesive tape with release paper liner consisting of acrylic adhesive with flexible aluminum foil.

## 4. First aid measures

### 4.1. Description of first aid measures

First-aid measures general	In all case of doubt, or when symptom persist, seek medical attention.
First-aid measures after inhalation	No hazard in normal use.
First-aid measures after skin contact	Wash skin with soap and water.
First-aid measures after eye contact	Rinse with eyewash solution or clean water.
First-aid measures after ingestion	The product is not edible and should not be ingested.

## 5. Firefighting measures

The product is classified as low flame spread acc. to IMO FTP-Code 2010.

### 5.1. Extinguishing media

Suitable extinguishing media	Use water fog, foam, dry chemical or carbon dioxide (CO <sub>2</sub> ), sand to extinguish flame.
Unsuitable extinguishing media	None.

### 5.2. Special hazards arising from the substance or mixture

The product is low flame spread. There may have traces of white smokes, fumes, oxides of carbon and other combustion and products.

### 5.3. Advices for firefighters

Firefighting instructions	Use water spray to cool down fire-exposed surface and to protect personnel.
Protection during firefighting	Firefighter should use standard protective equipment and in enclosed spaces self-contained breathing apparatus.

## 6. Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

For emergency responders	In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulation.
--------------------------	--

### 6.2. Environmental precautions

Do not allow the product to spread into the environment.

### 6.3. Methods and material for containment and cleaning up

For containment	Recover mechanically the product.
Other information	Dispose residues at an authorized site. Local regulations may prescribe action to be taken.

### 6.4. Reference to other sections

For spill management please refers to sections 8 and 13.

## 7. Handling and storage

### 7.1. Precautions for safe handling

Care should be taken when storing and handling this product.

### 7.2. Precautions for safe storage

Care should be taken when storing and handling this product.  
Storage Temperature: Ambient

### 7.3. Specific end use(s)

No additional information available.

## 8. Exposure controls/personal protection

Appropriate engineering controls	Not necessary in normal use.
Hand protection	Protective gloves. The protective gloves to be used must comply with the specifications of EC directive 89/686/EEC and resultant standard EN374.
Eye protection	Wear suitable protective glasses.
Skin and body protection	Standard work clothes.
Respiratory protection	Not necessary in normal use.

## 9. Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Physical state	Solid
Appearance	Rolls
Colour	Shinny grey
Odour	Non
Odour threshold	Not applicable
pH	Not applicable
Melting point	Not applicable
Boiling point	Not applicable
Flash point	Not applicable
Flammability	Low flame spread according IMO FTP Code 2010
Explosive limit	Not applicable
Vapour pressure	Not applicable
Density	Not applicable
Solubility in water	Insoluble
Self ignition temperature	Not applicable
Viscosity	Not applicable

### 9.2. Other information

No information available.

## 10. Stability and reactivity

### 10.1. Reactivity

To our knowledge, the product is stable and inert under normal conditions of use, storage and handling.

### 10.2. Chemical stability

To our knowledge, the product is stable and inert under normal conditions of use, storage and handling.

### 10.3. Possibility of hazardous reactions

None under normal use.

### 10.4. Conditions to avoid

Avoid elevated temperatures.

### 10.5. Incompatible materials

Unknown

### 10.6. Hazardous decomposition products

None under normal conditions.

## 11. Toxicological information

### 11.1. Information on toxicological effects

Material does not present any health hazard when use, handle, store under normal condition.

Acute toxicity                      No evidence has been reported for the product (based on available data).

## 12. Ecological information

### 12.1. Toxicity

Ecology - general                      The product is not considered harmful to aquatic and terrestrial organisms.

### 12.2. Persistence and degradability

Do not discharge into drains or the environment, dispose to an authorized waste collection point or waste treatment plant.

### 12.3. Mobility in soil

Use according to good working practice and avoid re-leasing the product into the environment.

## 13. Disposal considerations

### 13.1. Waste treatment methods

Waste treatment methods      Dispose of in accordance with relevant local regulations.

## 14. Transport information

No dangerous good in sense of transport regulations.

## 15. Regulatory information

The product is not defined as dangerous nor has to be labelled according regulation (EC) No 1272/2008.

## 16. Other information

Data sources      Information from suppliers

*This Safe Use Instruction Sheet is based on our current knowledge at the date of issue and is supposed to describe the product with regards to health, safety and environmental requirements only. It is not meant to guaranty with a legally binding effect the presence/absence of certain properties.*
